Experience

Perficient, Inc. / Trifecta Technologies, Allentown, Pennsylvania (2008 to Present)
Lead Technical Consultant

Front-end SME on a web development team creating and supporting enterprise level e-commerce websites and related admin tools. Responsible for front-end and full stack development in a Java environment running IBM WebSphere Commerce and CoreMedia CMS.

▸ Developed responsive page layouts and components based on Photoshop and Zeplin designs for the CoreMedia CMS platform using Bootstrap, Sass, jQuery, Freemarker and CoreMedia Studio tools
▸ Developed responsive B2C and B2B storefronts for the IBM WebSphere Commerce platform based on Photoshop mockups using Sass, JSP, jQuery, Dojo, Bootstrap and ZURB Foundation
▸ Developed full stack implementations of custom CSR admin tools and product configuration admin tools, with related storefront customizations, including the UI design (Photoshop), front-end (JSP, Sass, jQuery), and back-end (Java DataBeans, Commands, SQL and MyBatis)
▸ Authored JSP custom tag libraries
▸ Optimized and published images with Adobe Scene7 Media Portal
▸ Customized the Scene7 Zoom Viewer tools to provide unique, interactive product viewers
▸ Provided Solr search customizations and front-end Solr integration utilizing the IBM WebSphere Commerce tag library

- Configured and developed custom page layouts and widgets for the Commerce Page Composer framework
- Implemented image optimization utilizing the CoreMedia responsive image framework
- Worked in an Agile/Scrum development team, participating in daily stand-up meetings, sprint planning and retrospectives
- Performed regression testing and issue resolution support through Jira
- Delivered workshops and one-on-one training with internal and client staff on front-end development and best practices

Lebhar-Friedman, Inc., Tampa, Florida (1999 to 2007)
Web Designer

In-house web and graphic designer for a magazine publishing company. Designed, built and supported the front end of internal and public-facing company websites. Designed in-house and client advertisements for print media and the web.

- Created website and email newsletter designs
- Hand-coded HTML/CSS templates
- Worked on a variety of sites such as news sites, brochure sites, and special event sites
- Communicated with project managers and internal clients during all stages of production
- Worked in Cold Fusion and ASP environments
- Performed site maintenance both directly on the HTML/CSS and with Ektron CMS
- Developed banner ads, buttons, logos, icons and other supporting graphics
- Created Flash animated banner ads, intros and slideshows
- Designed book covers with accompanying CD-ROM disc and jewel case covers
- Created magazine ads and brochures for mass mailings
